Public Comments Submitted Via Email

Hello,

I've attached my public comment, petition, supporting documentation, and PowerSchool enrollment projections. I'll be at the Board Meeting in person to present my public comment tonight.

Please include all of the attached items in the Board meeting minutes.

Thank you,
Brian Coward

Hello Superintendent Ortega-Lampkin, President Whitaker, and Board Members,

My name is Brian Coward. I'm a Woodland resident and I'm here for item 'M.2. - Information/Action: Discussion of Process to Amend and Reassess Districtwide Facilities Assessment'. I requested this item be discussed tonight, twice. Once at the Board Meeting held on September 22nd in which my voicemail was lost and I received no confirmation of the acceptance or denial of the request. The second request was made at the Board Meeting held on October 13th. I've also had public comments lost in the past and the fact that the District seems to have trouble orchestrating the basic functions of receiving public comment should trouble all of us.

But now here we are. I came to this Board back in 2019 with petition signatures supporting neighborhood schools. At the time I was greeted with reassurances and gratitude by Board member for bringing up an important topic. I'm here once again providing signatures, comments, and supporting documentation.

I've worked hard with neighbors to discover a very serious lack of elementary school capacity in the southeast parts of Woodland where even more growth is being planned. We've also discovered an early design for SLE was thrown out (-\$700k), we've notified the District of construction deadlines for SLE that were still mismanaged and required portables (-\$500k), and more recently that additional builder fees could have been collected since a bond was passed in 2020 and the District satisfies a portables to student ratio for a greater fee (missing revenue for a new school).

I was told back then that a very long process of updating the “Facility Master Plan” was necessary to determine whether new elementary schools were needed. I was stunned to discover the recently approved “District Facilities Assessment” (DFA) was explicitly done without enrollment projections (Powerschool) in Woodland, using existing capacity was satisfactory, and that no new schools would be necessary. These findings are completely counter to the expressed gratitude by some of you on this Board when presented with the petition back in 2019. Its completely counter to all the evidence of a growing population that pays fees and taxes to educate their children. Yet the Board approved the assessment. This outcome further diminishes the expectations of the community for a new school and is detrimental to negotiating a favorable developer agreement with the Tech Park.

I do find it troubling that the presentation the District has put together for tonight does not mention the Powerschool projections that I requested be amended to the DFA. The presentation appears to focus on the process. I did not ask for a discussion on the process for amending the data to the DFA. I asked that it be amended. I do not know if the Trustees have seen this data. Over 3,000 people that participated in the District’s engagement process have not seen this data. This presentation tells us the facility needs were assessed. They were not. We need A facility. We need a school.

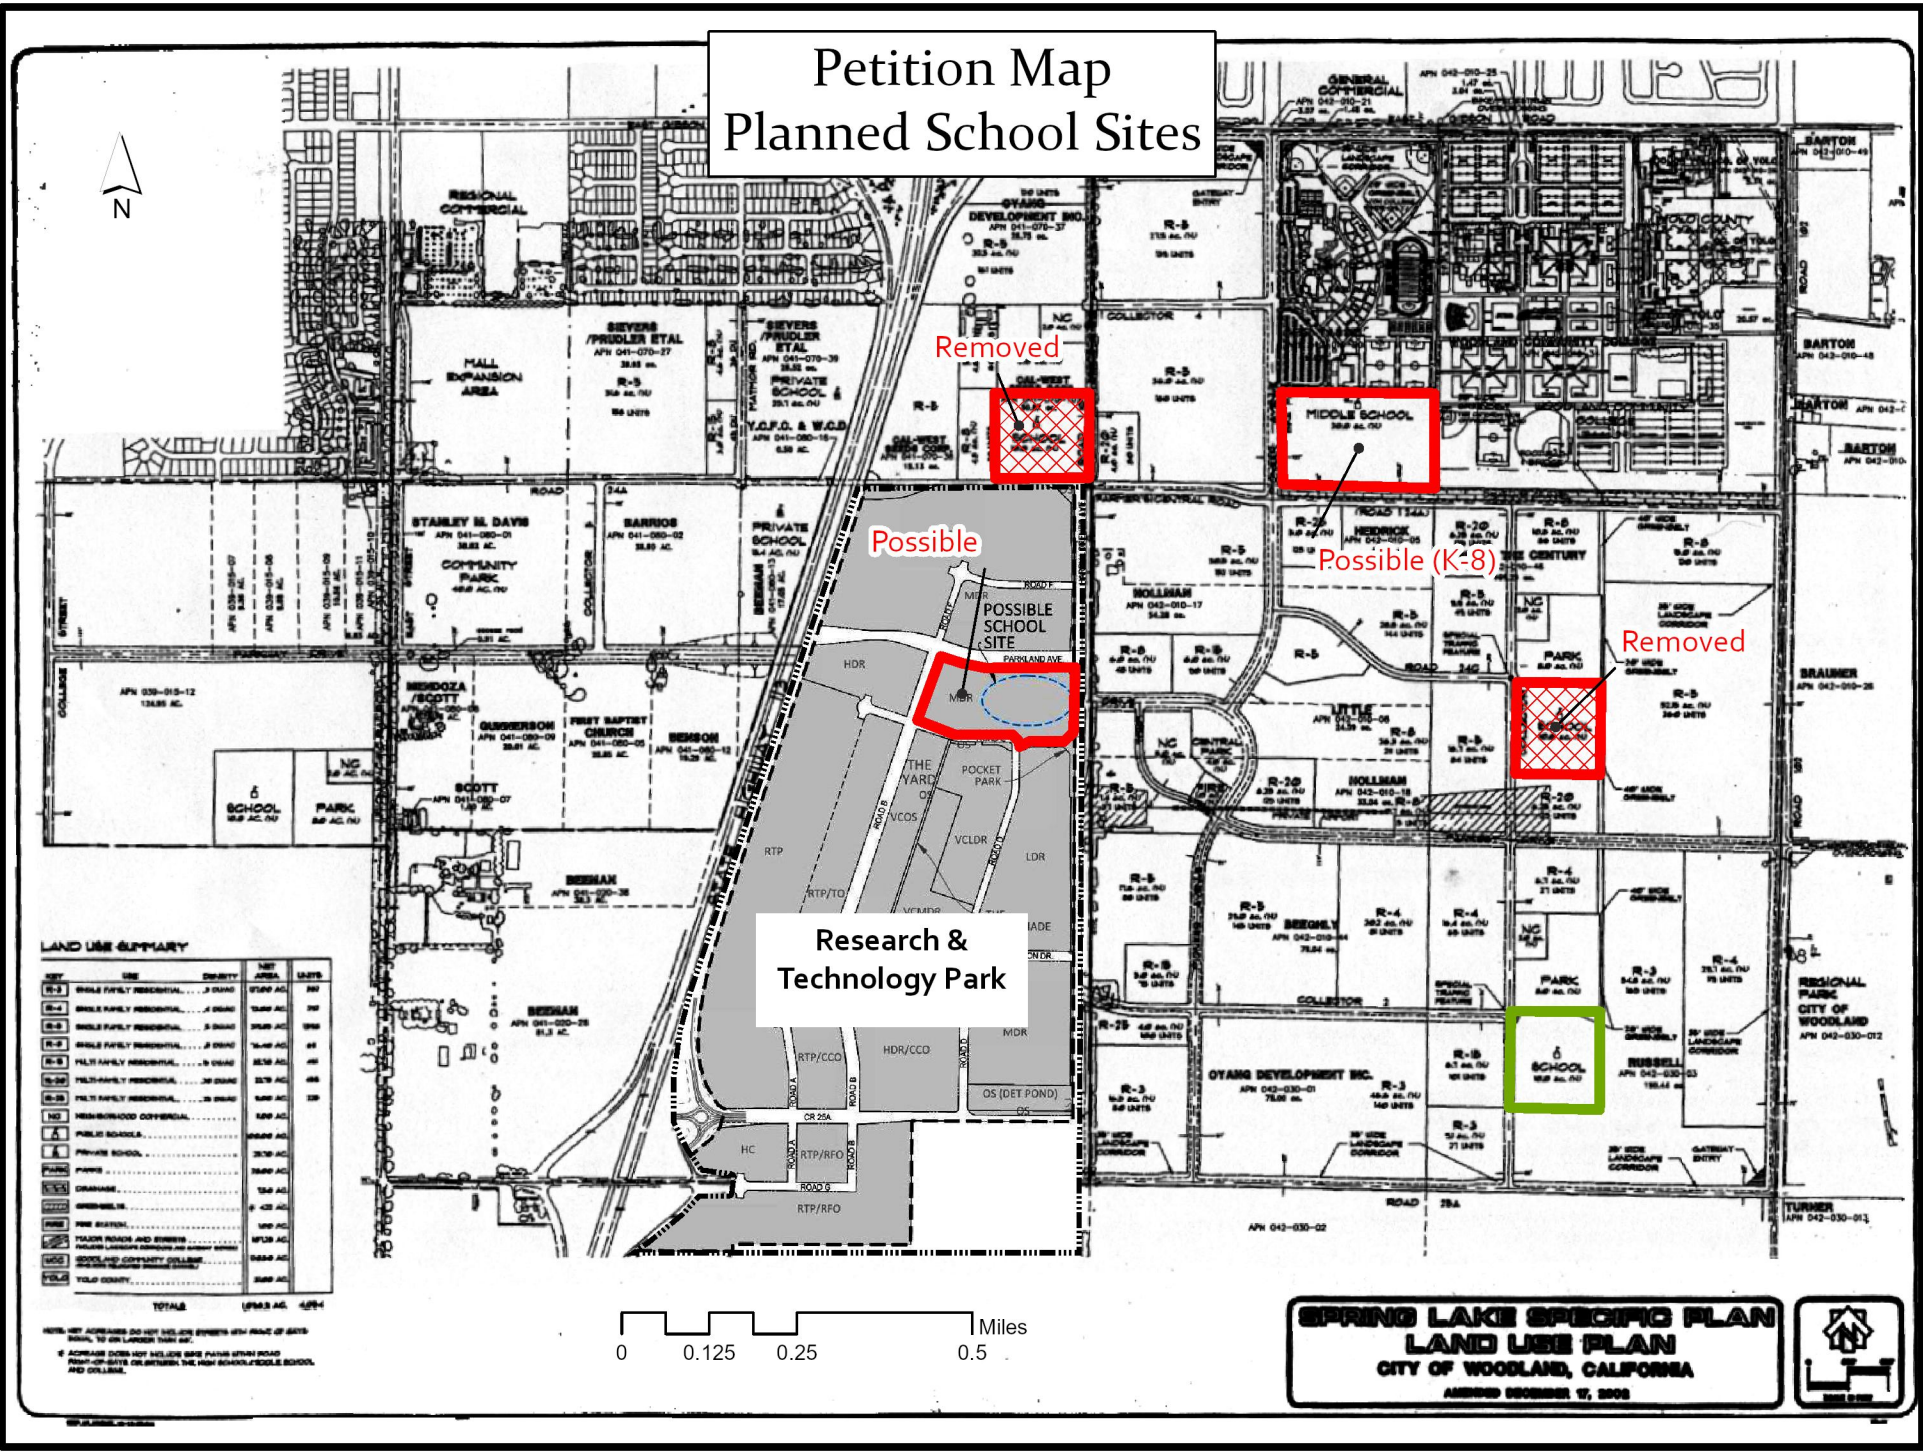

I’ve attached the Powerschool data to this public comment for the Board and the public to review. I expect the attached documents to be included in the Boards approved minutes. I’d request that the DFA be amended with the data and the incomplete assessment be reassessed.

Thank you,
Brian

Will our children have a chance to go to a neighborhood school?

309 have signed. Let's get to 500!

At 500 signatures, this petition is more likely to be featured in recommendations!

Brian Coward started this petition to Woodland JUSD, Trustee Area 7 Rogelio Villagrana, Member and [1 other](#)

Problem

There have been multiple amendments made to the Spring Lake Specific Plan which have eliminated key components of neighborhood access to schools for our children. As a community, we have invested heavily in our infrastructure to provide safe access through our greenbelts to neighborhood schools, parks, and commerce. With two of three planned school sites covered in homes, a new Research and Technology Park Specific Plan (draft) lacking zoning for a school(s), and District fee justification studies showing a projected elementary-age population of 1,400, we find our community at risk of losing the opportunity to have enough neighborhood schools.

Attachment 1 - [Planned School Sites map](#), Attachment 2 - [Student and new school projections](#), Attachment 3 - [Woodland Elementary Schools](#), Attachment, 4 - Addendum 1: [Student and new school projections 2020](#)

Solution

This petition asks that our School Board of Trustees work with the City Council of Woodland to ensure the necessary allocation of land, formal inclusion in the land use and zoning maps of the Research and Technology Park Specific Plan, and finance the construction of elementary school(s) to meet the needs of the elementary-age children in our community (both the Spring Lake and Tech Park Specific Plans) at completion.
